## SEED NUTS

### CRATH CARPATHIAN STRAIN OF PERSIAN WALNUTS

Seed nuts are again available of our Crath Carpathians. All from good varieties, including many of our best Varieties. We were not able to get nuts of all of our varieties this year because of the ravages of squirrels. They take the nuts before they are ripe.

We have received good reports from the seednuts we have sent out in the past. Germination has been good.

Growing of Crath Carpathians from seed nuts is practical as one is practically sure of securing trees which will bear good nuts. Out of more than fifty seedlings we grew from seed, only one was worthless. All of the others would be worth propagating if it was not for the fact that some varieties are better than others and only the best varieties should be propagated by budding or grafting.

Price of nuts is \$.10 each or \$1.00 per dozen. Postpaid. Instructions for care of nuts and planting will be sent with each lot of nuts.

## GRAFTING WOOD

We can supply grafting wood of most of the leading varieties of hickory and black walnut. Price of wood is 20¢ per foot. Postpaid.

Also of Broadview, Littlepage and any of our numbered varieties of Persian walnut and Fodermaler, Gellatly, Marvel, Rival and Wright heartnuts. Price of wood is 25¢ per foot. Postpaid.

One foot of wood will make three or four scions.
